

GaUCHO®

 **BEKAERT**

better together

Green Label™ Fencing Products

The same GaUCHO products you know and trust are now available in green.

Our most popular GaUCHO products are now available with our latest coating technology, Bezinal® (Zn + Al) + Paint. The base of this coating is Bezinal which alone will last even longer than Class 3 (Heavy Coat) Galvanized. To further improve this coating we have covered it in a special high adhesive UV stabilized paint. This top coat gives products an eye pleasing green finish and helps the Bezinal perform even better.

Advantages:

- Great Looking Green Finish
- Same Benefits as Our Other GaUCHO Products
- Longer Life Expectancy than Galvanized
- UV Tested for Color Stability

Under this new coating you will get the same GaUCHO quality and performance that you expect. GaUCHO Green Label includes all of the benefits associated with our original GaUCHO High Tensile products including higher strength, easier installation, reduced maintenance, and longer life.

Part #	Product Description	Weight	Finish
