

# Bekaert 14g Fixed Knot Sheep & Goat Fence

Are you looking for a fence that's specifically designed for sheep and goats?

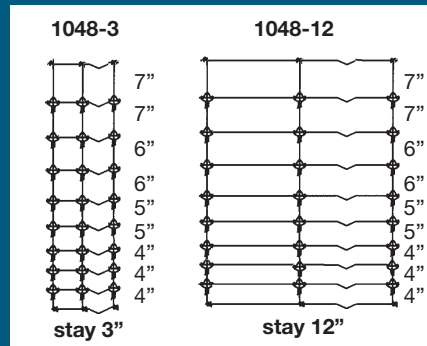

Our Fixed Knot Sheep and Goat Fence is just that. Plus, unlike field fence or non climb fence, fixed knot is virtually maintenance free and offers the strength you're looking for.

Our fixed knot fence puts the safety of your animals first. We offer your choice of a 3 inch or 12 inch opening so your animal won't get hung up. Plus the fixed knot design and use of solid vertical stay wires offers superior strength. This strength, combined with the use of high tensile steel reduces your maintenance and installation costs.

And Class 3 (heavy coat) galvanization will make your fence lasts two to three times as long as Class 1 or commercial galvanized products.

Once you learn more about Fixed Knot Sheep and Goat Fence we know you'll want to...

Build a better, longer lasting fence with Bekaert.
